TERMINATION OF STATE OF UTAH SALT LEASE AND ROYALTY AGREEMENTS ML 8958

Due to non-production of salt from Utah State Salt Lease and Royalty Agreements ML 8958, the lease and royalty agreements have been terminated. Lessee is Akzo Salt of Utah, Inc., 1428 James Palmer Road, Lake Point, UT 84074. This action is based on the terms of the agreements as determined in Agency Action 92-0120-ML8958, with an effective date of February 27, 1992. At the completion of a thirty day appeal period, March 30, 1992, no petition was received by the Division appealing this decision.

Upon the recommendation of Mr. Bonner, the Director terminated Utah State Salt Lease and Royalty Agreements ML 8958.

CORRECTION OF UTAH STATE OIL, GAS, AND HYDROCARBON LEASE ML 37653

This lease was approved on March 31, 1980, with the following legal description:

<u>T6S, R21E, SLB&M.</u>	Uintah County
Sec. 34: Bed of the Green River	488.45 acres
Sec. 35: Bed of the Green River	
Sec. 36: Bed of the Green River	

<u>T7S, R21E, SLB&M.</u>	
Sec. 1: Bed of the Green River	
Sec. 2: Bed of the Green River	
Sec. 3: Bed of the Green River	

It has been brought to the attention of the Division that Section 1, Township 7 South, Range 21 East, SLB&M., was inadvertently added to the lease when it was approved. The approved acreage did not include Section 1 and is therefore correct. Said Section 1 should be deleted from the lease and the legal description should read as follows:

<u>T6S, R21E, SLB&M.</u>	Uintah County
Sec. 34: Bed of the Green River	488.45 acres
Sec. 35: Bed of the Green River	
Sec. 36: Bed of the Green River	

<u>T7S, R21E, SLB&M.</u>	
Sec. 2: Bed of the Green River	
Sec. 3: Bed of the Green River	

Upon the recommendation of Mr. Bonner, the Director approved the above-stated correction.

CORRECTION OF DIRECTOR'S MINUTES DATED APRIL 6, 1992; ML 45590 & ML 45591
OIL, GAS, AND HYDROCARBON

The Director's Minutes of April 6, 1992, show the approval of Oil, Gas, and Hydrocarbon Leases ML 45590 and ML 45591. The acreage for these leases have been transposed and are listed incorrectly.

ML 45590 was listed as containing 950.03 acres and should be corrected to show it contains 709.53 acres. ML 45591 was listed with 709.53 and should be corrected to show it contains 950.03 acres.

The leases were issued with the proper acreage but the records of the Division need to be corrected to reflect the correct acreage on these leases.

Upon the recommendation of Mr. Bonner, the Director approved the above-stated correction.

EASEMENT NO. 160

APPLICANT'S NAME AND ADDRESS:

Utah Power and Light
Suite 110
1407 W. North Temple
Salt Lake City, UT 84140

LEGAL DESCRIPTION:

Township 19 South, Range 1 East SLB&M

Sec: 15: NW4SE4 Beginning at a pole in an existing power line on the Grantor's land at a point 791 feet south and 1388 feet west, more or less, from the east one-quarter corner of Section 15, T.19 S., R.1 E., S.L.B.&M., thence N.2°39'55"W. 702.4 feet, more or less, on said land and being in the NW1/4 of the SE1/4 of said Section 15.

County: Sanpete

Acres: .16

Fund: School

PROPOSED ACTION:

RELEVANT FACTUAL BACKGROUND:

The proposed easement is for a small distribution line off an existing line to service Gunnison City's new water tank which is under lease from the state under SULA 907. Also no public comments were received from the public notices.

EASEMENTS (CONT'D)

EASEMENT NO. 160 (cont'd)

CRITERIA FOR EVALUATION:

R640-100-3(1) requires the initiation of a planning process when an application for a trust or sovereign land use is received.

R640-100-3 Initiation of Planning Process

1. The planning process may be initiated either by:
 - (a) the designation of a planning unit as planning priorities are established by the board; or
 - (b) by an application for a trust land use or a sovereign land use.

640-100-3(2) allows the Director to make a planning decision prior to processing the application based on rule criteria. These criteria are:

1. amount of public interest in the natural and cultural resources of the area,
2. unique attributes of the land,
3. the potential for conflicts with other land uses,
4. opportunities for commercial gain by a development of a general, comprehensive, or resource management plan, and
5. benefits of an exchange or other option.

Easements are excluded from the narrative record of decision process if all of the following four conditions exist:

1. The proposed easement is not located entirely on State land and is located in an existing easement corridor.
2. The proposed easement is for 30 years or less.
3. The applicant has paid the fee as determined by the Division.
4. The proposed easement will not have an unreasonably adverse affect on the developability or marketability of the subject property.

PAGE NO. TWENTY-FOUR
JUNE 15, 1992

EVALUATION OF FACTS:

The standard fee for a ten foot wide distribution line is \$12.00/rod. Preliminary modeling indicates that the property would have to be worth more than \$3,960.00/acre in order to exceed the per rod rate. As land values in this area are less than \$500.00/acre, the per rod rate will be used.

An examination of the public comment received in conjunction with this application and an analysis of the other criteria in R640-100-3(2) did not indicate that a general, comprehensive, or resource management plan was required.

The proposed easement is located entirely on State land, but it is located in an existing easement corridor. It is for a term of 30 years and the applicant is willing to pay the indicated fees. As far as the staff has been able to determine, there will be no unreasonably adverse affect on the developability or the marketability of the subject property. Therefore, this summary will constitute the Record of Decision.

Upon the recommendation of Mr. Brown, the Director approved the above-described application for easement with the fee being \$510.84 plus a \$50.00 application fee, with a \$20.00 administrative fee being assessed every three years beginning January 1, 1995.
